This appears to only affect the lab analytical. We supposedly have enough hours to complete HTC HPGe analysis that Chad is performing from now until the end of the contract period.

Good morning Eric,

Please see email below from Mark Pane and let me know how this affects future work at the Niagara Falls Blvd. Rad. Site. In addition, please let me know if this affects the ongoing HPGe field screening of the soil samples recently collected at the Holy Trinity Cemetery Site.

Thanks,

Ben Nwosu  
Principal Project Scientist / Group Leader Weston Solutions, Inc.

Please hold off on this until Joe gives the ok

Thanks

Boulevard Site located at 9524-9540 Niagara Falls Boulevard, Niagara Falls, New York. As a part of this  
sampling event, RST 3 collected 65 soil/rock/slag samples for the radiological parameters.

Parameters.  
> \* RST 3 contacted five laboratories for above analyses and received three responses from Eberline  
Analytical, ALS Environmental and EMSL Analytical. Received No bid from TestAmerica and no  
response from CF Analytical.  
> \* RST 3 set-up the conference call with Eberline Analytical lab manager, EPA- OSC Eric Daly,  
Lyndsey, Pete Lisichenko, Weston-Myself, Ben Nwosu, Patrick Buster, and Tim Benton and discussed  
about the bid criteria provided by the OSC. Eberline Analytical can meet the EPA's criteria and was the  
lowest bidder; therefore selected for the requested analyses.
